New criterion of Forklift Trucks

Hyundai introduces a new line of diesel forklift trucks. Excellent power and performance make your business more profitable.

■ Some of the photos may include optional equipment.

High Power & Performance

**Powerful Engine
HMC D4DD Engine**

Market approved quality of HMC D4DD engine ensures incomparable performance, durability and excellent fuel efficiency. This engine meets EPA Tier-III and EU stage IIIA emission regulations.

**73.6kW/2,300rpm
38kgf.m/1,600rpm**

State-of-the-art hydraulic system

The latest large-capacity hydraulic system reacts quickly during operation, and a low-noise control valve increases both efficiency and durability.

The new master on the job-site!

Smooth running, efficient and ergonomically designed, 70DF-7 series are made to meet your needs.

Some of the photos may include optional equipment.

Fast and stable performance

Being able to quickly raise and lower the mast, as well as tilt it forward and backward, providing the best operational conditions during unloading. When the truck is fully loaded, mast lowering speed is carefully controlled to ensure safety by the down control valve.

Faster travel speed & gradeability

The powerful high-output engine provides greater acceleration, better gradeability and faster travel speed on any tough terrain or slope.

Increased mast tilting angle

The mast tilting angle of 15 degrees forward and 10 degrees backward, the operator can safely and rapidly perform loading and unloading jobs.

Wet disc brake system

The wet disc brake system is virtually maintenance free and is enclosed to protect from dust and water.

Fully hydrostatic power steering

A hydraulic steering system always guarantees smooth and flexible steering, preventing overrun and kick-back.

OPSS (Operator Presence Sensing System)

Control of mast tilting, lifting and lowering is not possible through operation of the appropriate control when the operator is not in the normal position. (Option)

Comfortable Operation

Adjustable steering wheel

Steering wheel with horn button can be adjusted by a lever on the right-hand side for the most comfortable operator position.

Easy and safe shift lever

A single lever on the left side of the steering column gives the operator fast and easy controls of the direction.

Multi-function switch lever

Multi-functional switch lever gives easy access to lights and turn sign lamps.

Quick response of operating control levers

Only minimal operator's effort is required for precise, safe and productive control.

■ Some of the photos may include optional equipment.

Ergonomically designed with the operator in mind!

A design based on human engineering relieves fatigue and increases operator's efficiency.

Ergonomically positioned pedals

Based on human engineering, the accelerator, brake and inching pedals are optimally positioned for convenience while operating the equipment.

Cup holder & console box

Additional storage spaces are located inside the operating space for operator's convenience.

New high visibility for safe operation

The operator is able to work with increased safety and accuracy due to a wider view mast.

Operator friendly gauges and water-resistant monitor panel

- | | |
|-------------------------------|---------------------------------|
| 1 Water temperature gauge | 8 T-mission oil temp warning |
| 2 Hour meter | 9 Battery charging warning lamp |
| 3 Turn lamp | 10 Air-cleaner warning |
| 4 Fuel gauge | 11 Head lamp |
| 5 Parking brake lamp | 12 Work lamp |
| 6 Fuel empty warning lamp | 13 Engine preheating |
| 7 Engine oil pressure warning | |

Easily adjustable suspension seat

An attractive and adjustable seat, based on a human engineering design, provides great comfort, safety and durability.

Full floating overhead guard mount

The anti-vibration rubber is installed between the guard and truck frame to reduce the source of vibration and noise while driving. This not only reduces operator's fatigue but also increases safety.

Endurance & Safety

Strong overhead guard

The safety overhead guard exceeds EEC and ANSI regulations and protects the operator during hazardous jobs.

Parking brake

Toggle type parking brake requires less efforts from the operator to set.

Ground clearance

The engine and transmission are assembled horizontally and positioned high in the frame to protect major components during operation on rugged surface.

Highly durable split type drive axle

The durable drive axle provides fast travel speed and quiet travel under any heavy load condition, and boosts work efficiency.

Enhanced safety through high durability!

Safety and durability are priorities in the design of the equipment.

■ Some of the photos may include optional equipment.

Large footboard & hand grip

Wide "open" step offers convenience and safety when entering and exiting truck.

Heavy duty single unit frame

Heavy duty single unit type frame, designed on the basis of accurate structural analysis, guarantees durability and safety.

Easy access of electrical Components

Various electric parts are centralized in dash board resulting in improvement in maintenance.

Expansion bellows

The expansion bellows absorbs vibration and reduces noise generated from the exhaust gas system and also extends the life cycle of exhaust gas system.

Fuel tank safety valve

Integrated safety check valve shuts off fuel supply in the unlikely condition of a truck overturn.

Bright, protected headlights and rear working light

Bright, protected headlights and rear working light are positioned for exceptional visibility.

Durability **Easy** Maintenance

Centralized design for easy service!

An ideal arrangement of component parts ensures easy accesses and conveniences for the maintenance.

Electrically monitored air filter

Air cleaner sensor alerts the operator of a restricted air filter and allows replacement before damage.

Visible pre-cleaner

Efficient, accessible pre-cleaner provides for longer engine life.

Brake fluid reservoir

Highly visible, easily accessible reservoir makes quicker daily inspections.

An accessible, compact fuse box for easy inspection

Key-locking fuel cap with air vent

Automatic self locking gas spring

Engine compartment hood is held safely open by a self locking gas spring.

Large tool box

Additional tool box located in machine side for operator's convenience.

■ Some of the photos may include optional equipment.

Easy change air cleaner

The air filter is readily accessible for cleaning or replacement.

Large open engine hood

Highly accessible engine compartment assures fast and efficient maintenance.

Engine oil condition check

Easy-to-access reservoir tank

Maintenance free battery

Easy-to-change radiator

Mechanic friendly fuel filter replacement

Dimension

Specification

Identification		
1.1	Manufacturer	Hyundai
1.2	Manufacturer's type designation	70DF-7
1.3	Drive: electric (battery or mains), diesel, petrol, fuel gas, manual	DIESEL
1.4	Type of operation: hand, pedestrian, standing, seated, order-picker	seated
1.5	Load capacity / rated load	kg 7,000
1.6	Load center distance	c(mm) 600
1.8	Load distance, center of drive axle to fork	x(mm) 615
1.9	Wheelbase	y(mm) 2,300
Weights		
2.1	Service weight	kg 9,871
2.2	Axle loading, loaded front/rear	kg 14,964 / 1,907
2.3	Axle loading, unloaded front/rear	kg 4,260 / 5,604
Wheels, Chassis		
3.1	Tires: solid rubber, superelastic, pneumatic, polyurethane	pneumatic
3.2	Tires size, front(Φ x width)	8.25 - 15 - 14PR
3.3	Tires size, rear(Φ x width)	8.25 - 15 - 14PR
3.5	Wheels, number front x rear (x=driven wheels)	4 x 2
3.6	Track width, front	mm 1,578
3.7	Track width, rear	mm 1,602
Basic Dimensions		
4.1	Mast / fork carriage tilt forward / backward (α/β)	degrees 15 / 10
4.2	Lowered mast height	h1 (mm) 2,515
4.3	Free lift	h2 (mm) 140
4.4	Lift height	h3 (mm) 3,030
4.5	Extended mast height	h4 (mm) 4,320
4.7	Overhead guard height	h5 (mm) 2,578
4.8	Seat height / standing height	h7 (mm) 1,464
4.12	Coupling height	h10 (mm) 514
4.19	Overall length	l1 (mm) 4,815
4.20	Length to face of forks	l2 (mm) 3,618
4.21	Overall width	b1 (mm) 2,088
4.22	Fork dimensions(hook type)	s / e / l (mm) 65 x 150 x 1,200
4.23	Fork carriage ISO 2328, class / type A,B	Class IV
4.24	Fork-carriage width	b2 (mm) 2,068
4.31	Ground clearance, loaded, under mast	m1(mm) 195
4.32	Ground clearance, centre of wheelbase	m2(mm) 207
4.33	Aisle width for pallets 1,000x1,200 crossways (LxW)	Ast(mm) 5,257
4.34	Aisle width for pallets 800x1,200 lengthways (WxL)	Ast(mm) 5,457
4.35	Turning radius	Wa(mm) 3,442
4.36	Smallest pivot point distance	mm 1,224
Performance Data		
5.1	Travel speed, unloaded	km/h 22.7
5.2	Lift speed, loaded / unloaded	mm/s 420 / 460
5.3	Lowering speed, loaded / unloaded	mm/s 500 / 450
5.6	Max. Drawbar pull, loaded	N 65,921
5.7	Gradient performance, loaded / unloaded	% 38.5 / 23.6
5.9	Acceleration time, loaded / unloaded(10m)	-
5.10	Service brake	FOOT (Hydraulic)
Engine		
7.1	Engine manufacturer / type	HMC D4DD
7.2	Engine power acc. to ISO 1585	kW 73.6
7.3	Maximum torque	kgf-m/rpm 38 / 1,600
7.4	No. of cylinder / cubic capacity	cm ³ 3,907
7.5	Fuel consumption acc. To VDI cycle	ℓ / h 4.35
Other Details		
8.1	Type of drive control	Power shift
8.2	Operating pressure (system / attach)	bar 185 / 150
8.3	Oil volume (hydraulic)	ℓ / m 76
8.4	Noise (at driver's ear according to DIN 12 053)	db(A) 84.1
